## THE INTELLIGENT 3 in 1 BIOLOGY OXYGENEO FACIAL

Breathe youth back into the skin and rejuvenate balance and texture with our Revive Oxygeneo 3 in 1 FACIAL, that absorbs nutrient-dense ingredients into the skin for a radiant glow!

The Oxygeneo is definitely a team and client favourite and our most popular treatment here at THE FACIAL BAR. This powerful treatment is perfect pre-event or for anyone looking to brighten, hydrate, nourish and plump their skin. We recommend this treatment for dry, dull, dehydrated, or ageing skin.

Let's break it down. This 3-in-1 treatment begins with Radio Frequency Skin Tightening. Using the latest technology. RF Skin Tightening provides effective results by delivering heat to the tissue below the epidermis, stimulating new collagen production whilst contracting fibres to tighten the skin painlessly and comfortably. The second component of the treatment is the Oxygenating Exfoliation. Using a unique effervescent capsugen, our Skin Expert's are able to deliver deep exfoliation and reveal bright, fresh, smooth skin. The capsugen begins smooth and gradually becomes more coarse as this part of the treatment goes on.

The third and final component of this awesome treatment is Ultrasound Product Infusion. Our Skin Expert's will use sonophoresis to encourage maximum absorption of a hydrating solution into the epidermis of the skin.

The results from this treatment really speak for themselves. Once you experience the Oxygeneo, you'll never look back!

(90 Min) ₹5500

## THE BACK FACIAL

Don't let your face have all the fun! The back facial provides a complete cleansing for those hard-to-reach spots, combining extractions with brightening exfoliation to leave skin, smooth, soft, and even more-toned.

Back facials are beneficial to cleanse hard to reach areas and tone the skin. A back facial benefits the healing of dry skin, treats back acne, eases muscle tension, and exfoliates and smoothens the skin.
